## Join Atmos Energy in Preparing for Winter

**WELD COUNTY, Colo. – October 14, 2024** – The transition from summer to cozy fall days is here. Atmos Energy remains focused on year-round preparations for the winter heating season. We also have tips to help you stay safe and conserve energy so you can be ready for winter too.

All year round, from gas supply to delivery of natural gas service at the meter, Atmos Energy is preparing for winter weather. As your household also prepares for winter, using energy wisely [and making a few household changes](#) can make a big difference in how much you spend on natural gas and other energy bills. Atmos Energy offers rebates for high-efficiency natural gas appliances, energy-saving devices, and weatherization upgrades for customers in Colorado – visit [atmosenergy.com/COREBATES](https://www.atmosenergy.com/COREBATES) for details.

### Service Reconnections

If your natural gas service lapsed for any reason and you need to reconnect service, contact Atmos Energy now to schedule an appointment – *before* cold weather sets in. The Atmos Energy customer service team is available at 888.286.6700, Monday through Friday from 6 a.m. to 5 p.m. Mountain time – or visit the Account Center anytime at [www.atmosenergy.com](https://www.atmosenergy.com). If you need assistance paying your natural gas bill, visit [atmosenergy.com/assistance](https://www.atmosenergy.com/assistance) or call 211 for solutions.

### Sign Up for Text Alerts

When the forecast calls for extreme cold to arrive, Atmos Energy will closely monitor the weather and stage qualified, well-trained employees across our system. We will communicate regularly with customers and communities before, during, and after extreme weather events. To sign up for text alerts, adjust your notification preferences in the [Account Center](#). Follow us on [Facebook](#), [Twitter](#), [Instagram](#), and on our website at [atmosenergy.com](https://www.atmosenergy.com) for continued safety and weather preparedness information.

### Energy-Saving Tips

Remember that colder weather may impact the amount of natural gas you use. To save energy and money, [please consider these tips](#) where safe to do so:

- When safe to do so, lower your thermostat to 68 degrees during the day and 58 degrees when you are away from home.
- Reduce your shower and bath time. Showering and bathing can account for 40 percent of your home's hot water use.
- Operate your clothes washer, dryer, and dishwasher only when fully loaded.
- Unless a fire is burning, close your fireplace damper to prevent warm air from escaping up the chimney.

Smell gas, act fast! If you suspect a natural gas leak, leave the area immediately! From a safe distance call 911 and Atmos Energy's 24-hour toll-free emergency number at 866.322.8667.

**About Atmos Energy**

Atmos Energy Corporation, an S&P 500 company headquartered in Dallas, is the country's largest natural gas-only distributor. We safely deliver reliable, affordable, efficient and abundant natural gas to more than 3 million distribution customers in over 1,400 communities across eight states located primarily in the South. As part of our vision to be the safest provider of natural gas services, we are modernizing our business and infrastructure while continuing to invest in safety, innovation, environmental sustainability and our communities. Atmos Energy manages proprietary pipeline and storage assets, including one of the largest intrastate natural gas pipeline systems in Texas.
